LAB RESEARCHER

**Healthcare Management**

**CAMILLA.FALIVENA@SDABOCCONI.IT**

---

# Biography

Camilla Falivena is Lab Researcher of Healthcare Management and Health Economics & HTA at SDA Bocconi School of Management, in the Division of Government, Health and Not for Profit.

At SDA Bocconi, Camilla has participated in several research and training projects with the Italian Ministry of Healthcare and companies operating in life science and consulting areas.

Her research interests revolve around two main areas. The first is related to the Health Technology Assessment. The second concerns financial accounting and management accounting, with a focus on the public healthcare sector.

She authored several articles published in prestigious national and international journals on health management topics and accounting and accountability for sustainability issues. She has also participated in numerous national and international conferences held by leading scientific associations and networks to which she is affiliated (AIDEA, SIDREA, IRSPM, EURAM). She has been participating in a European Institute of Innovation and Technology (EIT)-funded project since the period as a visiting PhD scholar at IESE Business School. She has worked as a contracted professor and teaching assistant on BS and MS courses in the area of business economics.

Camilla holds a Master Degree in Economics and Management and a PhD in Management, with distinction in Public Management & Governance from the University of Rome Tor Vergata.

## Teaching domains

Financial Accounting

Performance Management

Strategic Management in Health Care Organizations

HTA Governance Systems

National and International Health Regulation

---
