Operations & Supply Chain Management

MARCO.BETTUCCI@SDABOCCONI.IT

Biography

Marco Bettucci is a Lecturer of Operations and Technology at SDA Bocconi School of Management.

At SDA Bocconi, he is the Category Leader in Operations & Supply Chain Management. He is head of the Executive Programs in Operations & Manufacturing Management and in Supply Chain Management. He is a professor in Executive MBA programs.

He has undertaken consulting projects for performance improvement in more than 80 companies operating in different industrial and distribution sectors.

His research activities focus on operations strategy, on logistics network design, supply chain planning, inventory management, material flow optimization, supply chain information systems, performance measurement, industrial organization and reengineering processes. In the last few years, he has dealt with omnichannel in the retail sector.

He is the author of numerous books and articles on his topic of interest. His works have been published in *Sistema & Imprese*, *Economia&Management*, *Logistica e Management* and the *International Journal of Engineering, Science and Technology* and he is the author of two books (“Competere con la logistica” and “Omnicanalità”). He is a member of the technical and scientific committee of the journal *Logistica* and he is a partner in a consultancy company in Milan working in operations, supply chain management and information systems.

Marco earned a degree in Management Engineering from Politecnico of Milan. He is married with two daughters.

Teaching domains
