## Curriculum Vitae

His collaboration with SDA Bocconi began in 2016. He is a Research Fellow of Accounting & Control, with a focus on healthcare sector.

He took part to multiple workshops and research projects with local and national public institutions and organizations operating in the healthcare sector. At CERGAS SDA Bocconi he participated to various action research projects concerning the modeling of methodologies for determining costs in healthcare organizations and for defining tools to support choices related to reimbursement schemes at regional and national level.

Alessandro is author of several contributions in the Observatory on Healthcare Organizations and Policies in Italy (OASI) Annual Report. He is also member of the editorial board of the Observatory. Moreover, he is author of international cases on *The Case Centre*.

Alessandro earned a Degree in Public Administration from the Bocconi University and he is currently Ph.D. candidate in Management and Innovation at Cattolica University.
