Curriculum Vitae

Andrea Sommariva is Associate Professor of Practice and director of the multidisciplinary research laboratory on the evolution of the space economy (SEE Lab) at the SDA Bocconi School of Management. He is an international economist specializing in international finance, the markets for oil and raw materials, renewable energy, and development of the space economy. He is a member of the study group "Space Mineral Resources - Challenges and Opportunities" of the International Academy of Astronautics.

He has worked in academia as an associate professor at the University LUISS of Rome, the Catholic University of Milan, the China-Europe Management Institute in Beijing, and SDA Bocconi in Milan. In the past, he served as an economist at the International Monetary Fund, Economic Advisor to the Minister of the Budget in Rome, Chief Economist at Montedison, and Senior Financial Advisor at the European Bank for Reconstruction and Development.

At present, his research interest centers on the development of the space economy, particularly on the effects of space activities on the world economy and the international relations. He has collaborated extensively with Professor Giovanni Bignami, a world known astrophysicist. He has written three books with Professor Bignami: (i) A Scenario for Interstellar Exploration and Its Financing (Springer Briefs in Space Development, 2013); (ii) Oro dagli Asteroidi e Asparagi da Marte: Realtà e Miti dell'Esplorazione dello Spazio (Mondadori Education, 2015); and (iii) The Future of Human Space Exploration (Palgrave MacMillan, 2016). In 2018, he has published a book The Political Economy of the Space Age: How Science and Technology Shape the Evolution of Human Society (Vernon Press, Series in Economic Development).

He collaborates with the journal Astropolitics devoted to the analysis of the economic, political, and military implications of

the use of space. He has written two articles for *Astropolitics*: Motivations behind Interstellar Exploration and Colonization, (March 2014), and Rationale and strategies for asteroids exploration and mining (March 2015).

Andrea Sommariva graduated in economics from Bocconi University in Milan, and studied at the University of Leuven in Belgium and the University of Indiana in the United States.

Pubblicazioni

Books

- The Political Economy of the Space Age: How Science and Technology Shape the Evolution of Human Society, Vernon Press, March 2018
