This workshop focuses on the relationship between securitisation and economic growth. We will find out if securitizations, accused to be one of the causes of the financial crisis, could become a possible solution of the Covid economic crisis.

- # How investment banks and financial engineers may help non financial agents to access credit?**
- # Does the impact of securitisation depend on the underlying type of collateral?**
- # May securitisation of business loans encourage investment and spur economic activity?**
- # Which are the perspectives of securitisations?**
